# Sculpting Light Into Design

Phaino Lighting, based in Dallas, specializes in providing uniquely designed architectural and decorative LED lighting fixtures. With over 20 years in the lighting industry, we bring a different look that prioritizes visual interest and delivers shapes and forms that provide rhythmic appeal to your interiors. Our approach is simple: we sculpt designs we find interesting and then use time honored techniques of glass and metal casting to bring them to life.

Our extensive product line caters to the distinct preferences of architects and interior designers, enhancing spaces with elegance and innovation. We have dedicated our company to delivering quality and creativity in lighting solutions.
